EXECUTIVE PROFILE

Telecom Network Planning professional with **22+ years of experience** across Transport Network Planning, Optical Fiber Networks, Radio Network Planning and Microwave Transmission. Currently serving as Deputy General Manager – Transport Network Planning at Vodafone Idea Limited, with experience in large-scale OFC rollout, Fiber POP planning, DWDM, transport network architecture, CAPEX planning and network expansion.

Experienced in planning and delivering large-scale fiber programs in the challenging **UP East** telecom territory, including **6,500 km of fiber network** comprising **3,000 km of own network and 3,500 km through IRU**, with **750 Fiber POPs**. Managed costing of approximately **₹120 Cr** for the own-fiber network and **₹110 Cr** for IRU fiber, covering a combined **₹230 Cr** program.

CORE COMPETENCIES

- Optical Fiber Network Planning & POP Planning
- Transport Network Planning & Architecture
- Network Capacity Planning
- CAPEX Planning & Costing
- Vendor & Stakeholder Management
- Telecom Project Execution
- OFC Rollout & Network Expansion
- DWDM
- Network Resilience & Redundancy
- Network Modernization
- Strategic Planning

PROFESSIONAL EXPERIENCE

Vodafone Idea Limited

Deputy General Manager – Transport Network Planning | Nov 2019 – Present

- Lead strategic planning and expansion of **Optical Fiber Transport Networks** supporting 4G, 5G and Enterprise services.
- Lead OFC transport planning and expansion and prepare annual **CAPEX and rollout strategies** aligned with network growth and service requirements.
- Planned and delivered **6,500 km of Optical Fiber Network** in the challenging **UP East** territory, comprising 3,000 km of own fiber and 3,500 km through IRU, delivering **750 Fiber POPs**.
- Managed costing of approximately **₹120 Cr for 3,000 km of own fiber** and **₹110 Cr for 3,500 km of IRU fiber**, covering a combined **₹230 Cr** fiber program.
- Played a pivotal role during the **Vodafone–Idea merger in 2019**, supporting network planning and integration activities.
- Drive **DWDM** and develop resilient transport architecture for network modernization and capacity expansion.
- FY24–25: planned **300 Fiber POPs**, **2,000 km OFC (~₹100 Cr)**, **100 Nokia PSS DWDM nodes** and CIENA NLD expansion.
- FY25–26: planned **95 additional Fiber POPs** as part of continued transport network expansion.
- FY26–27: planned **250 Fiber POPs** as part of the next phase of network expansion.
- Coordinate with vendors and cross-functional stakeholders for network planning, rollout and execution.

Vodafone Idea Limited

Manager – RF Planning | Apr 2015 – Oct 2019

- Led **2G/3G/LTE Radio Access Network planning** across UP East.
- Planned approximately **1,500 LTE sites** and managed Radio CAPEX planning.
- Supported the **Vodafone–Idea merger** and commercial 4G rollout.

Idea Cellular

Manager – Microwave Planning | Oct 2008 – Mar 2015

- Managed Microwave Transport Planning supporting approximately **7,200 2G and 1,800+ 3G sites**.
- Handled annual rollout of approximately **1,000 2G and 300 3G sites**.
- Worked with **Nokia and ECI** on microwave transport planning and network rollout.
- Completed the **Saksham Leadership Programme (2013)**.

Reliance Communications

Deputy Manager – Transmission Planning | Feb 2008 – Oct 2008

- Handled **Microwave Transmission Planning**.
- Worked on **Link Budget Analysis and Path Profiling**.

ADA Cellworks

Transmission Engineer – Nokia–BSNL UP East Project | Mar 2006 – Jan 2008

- Worked on transmission deployment and coordination with **Nokia and BSNL** for the UP East project.

Telecom Network Solutions

RF Engineer | Dec 2004 – Mar 2006

- Worked on **GSM RF planning and optimization**.

TECHNICAL EXPERTISE

Transport: OFC, Optical Fiber Networks, DWDM, SDH, PDH, Microwave

Wireless: GSM, UMTS, LTE, 4G, 5G

OEMs: Nokia, Huawei, ECI, CIENA

Tools: LIPTON SI 2.0, MapInfo, Google Earth

EDUCATION

B.E. – Communication Engineering

Madan Mohan Malaviya Government Engineering College, Gorakhpur

2002 | 70.60%

PROFESSIONAL CERTIFICATIONS

- CCNA
- Diploma in Wireless Technology (2008)
- 3G Transmission Optimization Principles (2010)
- Six Sigma Project Completion (2018)
- Saksham Leadership Development Programme (2013)

CAREER HIGHLIGHTS

- **22+ years** of telecom industry experience across transport, optical fiber, RF and microwave planning.
- **6,500 km** of fiber network planned and delivered in UP East, including own network and IRU fiber.
- **750 Fiber POPs** delivered through large-scale network planning and expansion.
- **■230 Cr** combined fiber program costing across 3,000 km own network and 3,500 km IRU fiber.
- **2,000 km OFC rollout (~■100 Cr)** and 300 Fiber POPs planned as part of FY24–25 transport expansion.

- **100 Nokia PSS DWDM nodes** and CIENA NLD expansion planned for transport network modernization.
- Pivotal contribution to the **Vodafone–Idea merger in 2019**.
